**Presentation**  
1,8 fl.oz pump

**Applications**  
30 applications

- **Description**

A light serum-like cream with a moisturizing, regenerating effect.

- **Effect**

Created from a base of orange concentrate and enriched with essential orange peel oil which produces a regenerating and repairing effect on the skin.

- **Properties**

Formula inspired by "Radicalen", the first cosmetic product in the world to have an anti-free radical function.

Orange concentrate, natural vitamin C and rich in other elements found in the fruit including: vitamin A, B1, B2, B6, H and PP as well as amino acids and sugars.

- **Key components**

Essential orange peel oil: a cellular anti-oxidant.

Vitamin E: With an anti-free radical effect which improves the suppleness of the skin.

Active ceramides: Improve cohesion between corneocytes and increase the corneal layer's capacity for water retention.

Sun filter: Protects the skin from the sun's ultraviolet rays.

- **How to use**

Apply morning and night to previously cleansed skin.

For greater effectiveness the application of a few drops of the intensive repair treatment is recommended prior to the application of the face cream.

- **Sales arguments**

- Formula inspired in "Radicalen", the first cosmetic product in the world with an anti-free radical action.
- A skin regenerating treatment ideal for use on skin with scarring or stretch marks.
- Suitable for all skin types and especially indicated for recovery of skin tone and natural glow.
